

AN EPIC TEAM-BUILDING, FUNDRAISING EVENT
8,000 people, 4 countries, 7 charities, 3,634 km, 24 days

SPONSORSHIP REQUEST

Equinox Gold's team is cycling 3,634 km from Vancouver, BC to Geraldton, ON to celebrate the opening of our new Greenstone Mine and raise money for the Geraldton District Hospital, which serves a 2,767-km² region in Northern Ontario including five Indigenous communities and the Greenstone Mine workforce. Teams at our mine sites in California, Mexico and Brazil are sending cyclists to join this expedition and are also organizing a variety of events to raise money for charities in their local communities.

WHAT is the Equinox Gold Ride to Greenstone?

The main event is a 24-day bike relay leaving Vancouver, BC on August 5, 2024 and ending on August 28, 2024 at the mine opening ceremony for our new Greenstone Mine in Geraldton, Ontario. In addition to celebrating the opening of Greenstone Mine, the event will raise money for the Geraldton District Hospital with the target of raising C\$1 million for the hospital. Our mine sites and offices in California, Mexico and Brazil are sending cyclists to join the cross-Canada ride and the mine sites are hosting a variety of events focused on team building and physical activity to raise money for charities in their region, bringing our global workforce, contractors and suppliers together to benefit local communities.

WHY the Ride to Greenstone?

This event has three main goals: to celebrate the opening of Greenstone Mine, to create team-building opportunities company wide, and to raise much-needed funds for charities in the communities where we live and work. We intend to make the opening of Greenstone Mine an unforgettable achievement for Equinox Gold, our team, our supporters, our Indigenous and community partners and the Canadian mining industry!

WHY should you get involved?

Your company's involvement as a sponsor of the Ride to Greenstone event will serve as a powerful demonstration of your commitment to social responsibility, community well-being and sustainable resource development within the mining industry and its supply chain. Through this partnership, you will be highlighted as a leader that actively contributes to positive change, further enhancing customer loyalty and engagement both within the mining industry and beyond. We will showcase your involvement on a global stage to our more than 100,000 social media followers, 6,000 email subscribers, nearly 20,000 investors and countless stakeholders and media outlets that have been watching Greenstone advance toward production.

HOW will your sponsorship support the event and the communities?

We ask that you notify Equinox Gold of your sponsorship intent, and then send your donation directly to the Geraldton District Hospital so you can receive a tax receipt. Your sponsorship will be recognized with branding and marketing opportunities for your company commensurate with your level of support, including logo placement on event clothing, mentions in promotional materials, social media campaigns and communications to Equinox Gold's investors, partners and stakeholders. This partnership will give your company visibility on a global stage, highlighting your commitment to positive social impact. There are also opportunities for sponsorship-in-kind.

AN EPIC TEAM-BUILDING, FUNDRAISING EVENT
8,000 people, 4 countries, 7 charities, 3,634 km, 24 days

Why partner with Equinox Gold?

Equinox Gold Corp. was founded in 2017 by [Ross Beaty](#), arguably our generation's leading resource entrepreneur and a well-known philanthropist. Our vision for Equinox Gold is to create the Premier Americas Gold Producer, an industry-leading company that will responsibly and safely produce more than one million ounces of gold annually, bring long-term social and economic benefits to its host communities, create a safe and rewarding workplace for its employees and contractors, and provide above average investment returns to its shareholders.

Equinox Gold has grown quickly from a single-asset developer to a diversified mid-tier gold producer. In our first six years we have acquired one mine and two companies, built three new mines, sold two mines and created three new companies. Today we have seven operating mines in California, Mexico and Brazil and are commissioning our eighth mine in Ontario, Canada: the Greenstone Mine. Achieving production at Greenstone will be an important catalyst for Equinox Gold, as our largest and lowest-cost mine, and will be transformative for our Indigenous partners, the Municipality of Greenstone and for Northern Ontario, bringing employment and business opportunities for decades.

The Ride to Greenstone will celebrate this important achievement and provide lasting benefits to the region by raising money for the Geraldton District Hospital. Equinox Gold has nearly 20,000 investors around the world who have been tracking Greenstone progress and will watch our team ride across the country to celebrate the mine opening. We have 8,000 team members and countless suppliers, business partners and community partners at Greenstone and our other mines, more than 100,000 social media followers, more than 6,000 news release subscribers and hundreds of online and print media publications that have been watching the Greenstone build. All of these stakeholders will follow progress as we make our way across the country to our new Greenstone Mine, cheering the team on and appreciating the sponsors who help to make the event a success.

Why support the Geraldton Hospital?

The Geraldton Hospital serves approximately 5,700 residents over a 2,767-km² region in Northern Ontario, including five Indigenous communities and the Greenstone Mine workforce. The Geraldton Hospital has a C\$2.5 million fundraising target to complete a number of important initiatives including:

- Expanding and modernizing its laboratory facilities
- Replacing outdated x-ray and ultrasound equipment
- Purchasing a portable ultrasound for the Emergency Department
- Replacing outdated IV pumps
- Purchasing an oxygen filling station
- Expanding its long-term care facilities
- Adding mental health rooms
- Updating the hospital's IT and electronic record keeping infrastructure

Our goal is to raise C\$1 million for the Geraldton District Hospital. Your support will ensure the hospital can continue to provide life-saving care to an underserved region.

We ask that you notify Equinox Gold of your sponsorship intent, and then send your donation directly to the Geraldton District Hospital so you can receive a tax receipt.
